User acknowledges that Science Exchange's website may utilize cookies as set forth in our [Cookie Policy](#) and that User may be entitled to exercise its rights to request data in accordance with our [Data Request Policy](#). User may use the Service only in compliance with these Terms and Applicable Laws. Any use or access of the Service by anyone under 18 is strictly prohibited and in violation of these Terms. If User and Science Exchange have entered into a separate agreement, such separate agreement will supplant these Terms in all applicable areas, as between Science Exchange and such User. For the avoidance of doubt, Articles 3, 5, 6, 8, and 11 - 14 will apply to all Users.

2.2 Updates to the Terms.

Science Exchange may, in its sole discretion, modify or update these Terms from time to time, and so User should review this page periodically. When Science Exchange changes these Terms, it will update the 'last modified' date at the top of this page. Furthermore, Science Exchange will provide User with thirty (30) days' advance notice of changes to the Requester T&Cs and Supplier T&Cs, which notification will be made by email to the legal notice email listed on the Signature

If there are material changes to these Terms, Science Exchange will notify User either by prominently posting a notice of such changes or by directly sending User a notification explaining the material changes. For clarity, Requesters and Suppliers are both Users. The Platform contains features that enable Requesters and Suppliers to do, among other things, the following:

- Requesters: Requesters may create profiles, order experiments and other research-related goods and services by submitting Requests, manage Orders, and rate Suppliers. Requesters pay Suppliers via Science Exchange (as described in [Article 4](#) of these Terms).

- Suppliers: Suppliers may [apply for a Science Exchange storefront](#). If accepted, they may advertise capabilities, reply to Requests with Quotes, submit Quotes to Requesters for Orders, manage Orders, and get rated by Requesters. Suppliers receive payment via Science Exchange (as described in [Article 4](#) of these Terms).

The Platform offers certain customization options such as tailored workflows and custom fields. Science Exchange will provide User with initial training on such options and with ongoing support in accordance with Section 3.8 herein, but User is solely responsible for the implementation, maintenance and content of such customization options. Science Exchange may make available to User a large file transfer service, and User will comply with the instructions provided by Science Exchange with respect to utilization of such large file transfer service. User is responsible for any errors caused by User's failure to follow such instructions.

Users may also purchase products to supplement and enhance their use of the Platform. These Terms as well as product-specific terms in the product order form govern User's use of such products.

3.2. Platform Access.

In order to access the Platform, User must complete a Signature Form. The Signature Form includes billing and payment terms, the applicable Product Fees and subscription term, and other information specific to the relationship between Science Exchange and User. 3.3. Platform Availability.

Science Exchange will use commercially reasonable efforts to make the Platform available 24 hours a day, 7 days a week, except for: (A) scheduled maintenance of which Science Exchange provides reasonable advance electronic notices via the Platform and unscheduled maintenance; and (B) any unavailability due to force majeure events or other circumstances beyond Science Exchange's reasonable control, including acts or omissions of a relevant Supplier or Requester.

3.4. Platform Accounts.

General. User's Science Exchange account gives User access to the Platform. User's account is not transferable, and User may never use another User's account without express written consent of Science Exchange and all affected Users. When creating User's account, User must provide complete and accurate billing/payment and contact information to Science Exchange and promptly notify Science Exchange in writing of any changes to such information. User is solely responsible for any and all liabilities related to failing to provide accurate billing/payment information. User is solely responsible for the activity that occurs on its account, including any updates to billing/payment information, and it must keep its account password secure. Science Exchange may permanently or temporarily terminate or suspend User's access to the Platform if, in Science Exchange's reasonable determination, User has violated any provision of these Terms. Upon termination or suspension of User's access pursuant to the preceding sentence, User continues to be bound by these Terms. Science Exchange will inform User in writing of the rationale for any such termination or suspension and will provide User with a reasonable opportunity to correct all violations and regain access to the Platform. Any of these Terms which by their nature should survive termination of the Agreement, will do so.

derivative works from, distribute, or publicly display any content (other than User Data) from any Service or any software code that is part of the any Service without Science Exchange's prior express written permission; (E) interfere or attempt to interfere with the proper operation of any Service or any activities conducted on any of the Services; (F) bypass any measures Science Exchange may use to prevent or restrict access to the Platform or any subparts of the Platform including without limitation features that prevent or restrict use or copying of any content or enforce limitations on use of the Platform or the content therein; (G) transmit spam, chain letters, or other unsolicited communications via the Platform; (H) attempt to interfere with, compromise the system integrity or security or decipher any transmissions to or from the servers running any Service; (I) upload invalid data, viruses, worms, or other software agents through or to the Platform; (J) collect or harvest any personally identifiable information, including account names, from any Service; (K) access any content on the Platform through any technology or means other than those provided or authorized by the Platform; (L) impersonate another person or otherwise misrepresent User's affiliation with a person or entity on the Platform, (M) conduct fraud via the Platform, (N) hide or attempt to hide User's identity on the Platform; (O) directly or indirectly, advertise or promote another website, product or service or solicit other Users for other websites, products or services via the Platform; (P) upload any material to any Service that infringes or misappropriates the Intellectual Property Rights of any third parties; (Q) upload to the any Service any third-party confidential information or any other material that would violate any contractual obligation of User; (R) use the Services to store or process any content that is unlawful, racist, hateful, abusive, libelous, obscene, or discriminatory; (S) upload to the Platform or other Service any data which qualifies as personal health data protected under

Article L.1111-8 of the French Public Health Code or (T) use any Service to transmit any material in violation of any Applicable Laws.

3.7. Content Moderation; Enforcement of Use Restrictions.

User may notify Science Exchange of any content on the Platform that violates Section 3.6 above by emailing support@scienceexchange.com. Science Exchange will comply with all Applicable Laws in responding to such notices and will act in a diligent, objective and proportionate manner in applying and enforcing the restrictions in Section 3.6, with due regard to the rights and legitimate interests of all parties involved.

3.8. Reservation of Rights.

Subject to the limited rights expressly granted hereunder, Science Exchange reserves all right, title and interest in and to the Platform and other Services (and all improvements thereto and new uses thereof), including all related Intellectual Property Rights. No rights are granted to User hereunder regarding any Intellectual Property Rights of Science Exchange other than as expressly set forth in the Agreement.

3.9. Platform Support.

Science Exchange will provide commercially reasonable support to Users with respect to the Platform and Platform-related products. Users may contact Science Exchange [here](#) to receive support for using the Platform in accordance with the Agreement.

4. Payments.

4.1. Payment for Platform Access.

Requesters: Platform access is available to new and existing Requesters on a subscription pricing basis. For the avoidance of doubt, Science Exchange does not charge transaction fees, service fees, or in any way mark-up the cost of Supplier Services on orders placed through the Platform by Requesters under a subscription pricing contract; *provided that* if Requester orders Supplier Services through a Science Exchange concierge consultation on the Platform, Science Exchange may charge concierge service fees as a percentage of the Order Fees for the Order resulting from the concierge consultation.

Suppliers: Platform access is available to Suppliers at no charge. Suppliers may purchase offerings from Science Exchange to enhance their utilization of the Platform, but standard Platform access is provided at no charge for all Suppliers. For the avoidance of doubt, Science Exchange does not charge Suppliers any transaction fees, service fees, or in any way mark-up the cost of Supplier Services ordered through the Platform by Requesters under a subscription pricing contract.

4.2. Payment for Orders.

Requesters must pay Science Exchange for Orders placed via the Platform, and Suppliers must receive payment from Science Exchange for Orders placed via the Platform. Payment terms are set forth on the Signature Form and Requester T&Cs as well as the invoices issued to Requester and the purchase orders issued to Supplier. If the Supplier Services are governed by a Direct Agreement rather than the Supplier T&Cs, payment and billing terms set forth in the Signature Form supersede any conflicting payment and billing terms set forth in the Direct Agreement. Notwithstanding the foregoing, when Supplier Services are governed by a Direct

Agreement, Requester and Supplier may, with written approval from Science Exchange, agree that timing of payment for Orders will be governed by the terms of the Direct Agreement (e.g., Net 45, Net 60, etc.) rather than the terms of the Signature Form. Such an agreement becomes binding on Science Exchange when Requester and Science Exchange (a) appropriately configure the payment terms for the applicable Direct Agreement on the Platform and (b) amend the Requester Agreement to align Requester's payment timing with the Platform configurations.

4.3. User Costs.

User is solely responsible for all costs incurred in using the Platform, including, if applicable, any third-party licenses or applications required to utilize the Platform.

4.4. Science Exchange's Role.

User understands that Science Exchange is not responsible for the performance of Orders; Requesters and Suppliers bear the responsibility for performance of Orders. Science Exchange provides the Platform and processes payments for Orders, but Requester bears ultimate responsibility for compensating Suppliers for Supplier Services. User does not, by transacting on the Platform, transfer risks inherent in those transactions, including risk of non-performance and risk of default, to Science Exchange. User may evaluate data that Science Exchange makes available on the Platform in order to decide whether to transact with a particular Requester or Supplier. Requesters and Suppliers may transact with each other via that Platform at their own risk, and Science Exchange does not guarantee the creditworthiness or financial stability of any Requester or Supplier.

5. Ownership and Treatment of Services Content.

5.1 User Data.

User retains all right, title and interest in and to any and all User Data. User hereby grants Science Exchange a non-exclusive, non-transferrable, worldwide, royalty-free, limited-term license to (i) collect, use, copy, store, transmit, display, modify and create derivative works of User Data solely to the extent necessary to provide the Services to User or improve the Services and (ii) distribute User Data solely as directed or enabled by User through the Platform. Science Exchange will have no responsibility or liability for the accuracy of User Data.

5.2. License by User to Host User Data.

User hereby grants Science Exchange and its hosting providers a non-exclusive, non-transferrable, worldwide, royalty-free, limited-term license to host, store, transmit and display the User Data solely to the extent necessary for Science Exchange to provide the Platform services and fulfill its obligations pursuant to the Agreement.

5.3. Science Exchange Content.

User agrees that each of the Services and all software, images, text, graphics, illustrations, logos, patents, trademarks, service marks, copyrights, photographs and other content within any Service and all Intellectual Property Rights in the foregoing (collectively, the “**Science Exchange Content**”) are the exclusive property of Science

Exchange and its licensors. Except as expressly provided herein, nothing in these Terms will be deemed to create a license to Science Exchange Content. Use of the Science Exchange Content for any purpose not expressly permitted by these Terms is strictly prohibited.

5.4. Performance Metrics.

Science Exchange retains all right, title and interest in and to Performance Metrics and all Intellectual Property Rights therein. User acknowledges that Science Exchange may compile Performance Metrics based on User Data and use Performance Metrics for its internal business purposes to measure and enhance the functionality and operation of the Service and associated features, products and services, including to develop algorithms, models, reports and other tools of such features, products and services. User acknowledges that Science Exchange may combine anonymized User Data with anonymized data from other Users into a new aggregate dataset *provided that* User is not identifiable in such aggregate dataset (each, an “**Aggregate Dataset**”). User acknowledges that Science Exchange may utilize and exploit Aggregate Datasets for any legal purpose, including without limitation for distribution to third parties.

5.5. Feedback.

Science Exchange has not agreed to and does not agree to treat as confidential any Feedback User provides to Science Exchange, and nothing in these Terms or in the parties’ dealings arising out of or related to these Terms will restrict Science Exchange’s right to use, profit from, disclose, publish, keep secret or otherwise exploit Feedback, without compensating or crediting User. Notwithstanding [Article 6](#) (Confidentiality), Feedback will not be considered User’s Confidential Information or trade secret(s). Science Exchange is free to use Feedback

irrespective of any obligation or limitation between the Parties governing Science Exchange's use of User Data or any other data or information provided by or on behalf of User or its Representatives to Science Exchange. User hereby assigns to Science Exchange on User's behalf, and on behalf of its/their employees, contractors and/or agents, all right, title and interest in and to any Feedback provided by User. Except for the limited rights and licenses expressly granted herein, Science Exchange reserves all other rights, and no other rights are granted by implication, waiver, estoppel or otherwise.

6. Confidentiality.

6.1. Definition.

Users at their own discretion may disclose Confidential Information to Science Exchange and to other Users in relation to the Agreement. For clarity, this Article 6 applies to Confidential Information shared between Requester and Supplier in

relation to a Request, Quote or Order. For purposes of these Terms, “**Confidential Information**” means any and all information that is provided or otherwise disclosed by or on behalf of a Party or its Representatives (the “**Disclosing Party**”) to the other Party or its Representatives or to another User or its Representatives (the “**Receiving Party**”) in connection with the Agreement, in performance of an Order, in contemplation of an Order, or via the Platform and by any means whether in writing, orally, pictorially or through other tangible materials and whether or not marked as confidential. Confidential Information includes but is not limited to know-how, intellectual property, plans, documents, financial information, formulas, designs, calculations, facilities, reports, models, agreements, methods, inventions, discoveries, research concepts, patents, technology, products, chemical compounds and compositions, molecules, precursors, concepts, ideas, plans, processes, specifications, characteristics, techniques, and assays; clinical information such as raw data, scientific preclinical or clinical data, observations, records, databases, dosing regimens, clinical studies or protocols, posters, presentations and abstracts, product pipelines, timelines and schedules; business information such as development, marketing, sales, customer lists, suppliers, consulting relationships, performance and cost structures, pricing and commercialization plans, forecasts, proposals; and any other non-public information or other trade secrets, whether scientific, clinical or financial in nature. For clarity, all communications between a Requester and a Supplier (whether or not that Supplier has been engaged by that Requester to perform Supplier Services and whether such communications are made via the Platform or via some other method such as email, video chat, phone call or data sharing service) related to or in contemplation of a Request, Quote or Order are Confidential Information; such communications by Requester are Requester's

Confidential Information, and such communications by Supplier are Supplier's Confidential Information.

6.2. Exclusions.

Confidential Information will not include information that Receiving Party can demonstrate through written records: (i) is now or thereafter becomes generally known or available to the public, through no act or omission on the part of the Receiving Party; (ii) was known by the Receiving Party prior to receiving such information from the Disclosing Party and without restriction as to use or disclosure; (iii) is rightfully acquired by the Receiving Party from a third party who has the right to disclose it and who provides it without restriction as to use or disclosure; or (iv) is independently developed by the Receiving Party without use, access or reference to any Confidential Information of the Disclosing Party.

Notwithstanding the foregoing, the following will in any event be deemed the Requester's Confidential Information: (A) the Requester Materials and all information relating to the Requester Materials, including, but not limited to, their identity, characteristics, past and potential uses, and other activities; (B) Work Product; and (C) Requester Background IP; and (D) any Requests.

Notwithstanding the foregoing, the following will be deemed the Supplier's Confidential Information: (X) the Supplier Materials and all information relating to the Supplier Materials, including, but not limited to, their identity, characteristics, past and potential uses, and other activities; (Y) Supplier Background IP and (Z) any Quotes.

Notwithstanding the foregoing, all Orders will be treated by Supplier as the Confidential Information of Requester and by Requester as the Confidential

Information of Supplier. Subject to Section 5.4 herein, Science Exchange will treat Orders as Confidential Information of both the Requester and the Supplier.

6.3. Treatment.

Receiving Party agrees (A) to maintain all Confidential Information of the Disclosing Party in strict confidence, using at least the same standard of care that Receiving Party uses in protecting its own Confidential Information of a similar nature, which will in no event be less than a reasonable standard of care; (B) not to disclose Confidential Information of the Disclosing Party to any third parties without first obtaining the Disclosing Party's prior written consent to each such disclosure; (C) not to use Confidential Information of the Disclosing Party for any purpose except to facilitate discussions via the Platform, to perform the Supplier Services in accordance with the Order or to otherwise perform the Receiving Party's obligations under the Agreement; (D) to maintain reasonable security measures to protect the Confidential Information of the Disclosing Party against loss, theft or destruction; and (E) to return or destroy all Confidential Information of the Disclosing Party at the Disclosing Party's direction; *provided that* the Receiving Party may retain a copy of the Disclosing Party's Confidential Information solely to monitor its ongoing obligations or enforce its rights under the Agreement and as needed to comply with Applicable Laws. A Party may disclose Confidential Information of the Disclosing Party to its Representatives who have a bona fide need to know such information in order to perform an Order or the Agreement, provided, however, that such Party has entered into agreements that are equivalent in substance to the confidentiality provisions of these Terms.

6.4. Unauthorized Use or Disclosure.

Receiving Party will notify the Disclosing Party of any unauthorized transfer, disclosure, loss or use of any Confidential Information of the Disclosing Party within one (1) business day of its discovery of such transfer, disclosure, loss or use.

6.5. Disclosures Required by Law.

If the Receiving Party is required or requested to disclose Confidential Information of the Disclosing Party by judicial or administrative process or as otherwise required by Applicable Laws, to the extent legally permitted and practicable, it will promptly notify the Disclosing Party and allow the Disclosing Party a reasonable amount of time and opportunity to oppose such process and/or seek a protective order. The Receiving Party will disclose only the minimum Confidential Information required to be disclosed in order to comply, whether or not Disclosing Party obtains a protective order or other similar order. Notwithstanding anything in the Agreement to the contrary, the Parties will have the right to disclose any Confidential Information to a regulatory agency to the extent required or requested by such agency in connection with any regulatory filing, inspection or otherwise.

6.6. Duration.

The confidentiality restrictions contained herein will survive for a period of five (5) years after the expiration or termination date of the Agreement.

6.7. Irreparable Injury.

Any violation of these Terms relating to the disclosure or use of Confidential Information may result in irreparable injury and damage to the Disclosing Party not adequately compensable in money damages, and for which Disclosing Party may have no adequate remedy at law. In the case of breach or threatened breach of the disclosure and non-use terms herein, Disclosing Party will have the right to seek

injunctions, orders, decrees and other equitable remedies in order to protect the Confidential Information and will be entitled to do so without having to post a bond or other security or show monetary damages.

6.8. No License.

Receiving Party acknowledges and agrees that Disclosing Party retains all proprietary rights to the Disclosing Party's Confidential Information. Nothing in these Terms will be construed to grant any rights, express or implied, by license or otherwise, in or to any Confidential Information of Disclosing Party, or any Intellectual Property Rights of Disclosing Party, except as specified in these Terms.

6.9. Relationship with Direct Agreements.

In the event of any conflict between this [Article 6](#) of these Terms and any Direct Agreement with respect to Confidential Information provided or disclosed by or on behalf of (A) Supplier to Requester or its Representatives or (B) Requester to Supplier or its Representatives, the applicable Direct Agreement will control. In the event of any conflict between this [Article 6](#) of these Terms and any Direct Agreement with respect to Confidential Information provided or disclosed by or on behalf of (X) User or its Representatives to Science Exchange or (Y) Science Exchange or its Representatives to User, this [Article 6](#) of these Terms will control.

7. Term and Termination.

7.1. Term.

The Agreement commences on the Effective Date and will end when (A) the Term set forth on the Signature Form expires or (B) when either Party gives notice of termination as provided herein, provided that either Party may terminate the

Agreement earlier at any time upon thirty (30) days prior written notice to the other Party (the “**Term**”). The term of each Order will be as stated in the applicable Order.

7.2. Termination of the Agreement for Cause.

Either Party may terminate the Agreement if the other Party breaches any material term or condition of the Agreement and fails to cure such breach within thirty (30) days after written notice, or if the other Party becomes subject of a voluntary or involuntary petition in bankruptcy or any voluntary or involuntary proceeding relating to insolvency, receivership, liquidation, or composition for the benefit of creditors (provided that such petition or proceeding is not dismissed within sixty (60) days of filing).

7.3. Termination of an Order.

The Supplier T&Cs set forth the process for termination of an Order. If the Supplier Services are governed by a Direct Agreement, Order termination occurs in accordance with the applicable Direct Agreement; *provided that* Science Exchange may terminate or renegotiate an Order in the event such Order causes undue financial burden to Science Exchange.

7.4. Effects of Termination.

A termination of the Agreement in accordance with Section 7.2 will also terminate any Order then in force, whereas a termination of an Order in accordance with Section 7.3 will not terminate the Agreement. If at the end of the Term, or termination of the Agreement in accordance with Section 7.1, the Supplier Services under an Order then in force are not yet completed, the Agreement will remain in full force and effect solely with respect to such Order(s) until the earlier of either the completion of such Supplier Services or the termination of such Order(s) as per

Section 7.3. No refund of Product Fees will be provided in the event of termination pursuant to Section 7.1 or termination by Science Exchange pursuant to Section 7.2.

8. Third Party Links.

The Services may contain links to third-party websites, advertisers, services, special offers, or other events or activities that are not owned or controlled by Science Exchange. Science Exchange does not endorse or assume any responsibility for any such third-party sites, information, materials, products, or services. If User accesses a third-party website from any of the Services, User does so at its own risk, and User understands that neither these Terms nor Science Exchange's Privacy Policy apply to User's use of such sites.

9. Use of Name and Logo.

Unless otherwise agreed in writing by the Parties, Science Exchange may publicly identify the other Party as a Requester or Supplier, as applicable, using the other Party's name and logo. If User does not want Science Exchange to publicly identify User as a Requester or Supplier, User will notify Science Exchange in writing in accordance with [Section 15.1](#) of these Terms.

10. Indemnification.

10.1. Mutual Indemnification.

Each Party will, at its expense, indemnify, hold harmless, and, at the Indemnified Party's option, defend the other Party, its officers, directors, employees, and Representatives, against any liabilities, losses, damages, judgements, expenses, fines, penalties, charges and fees (including reasonable attorneys' fees) resulting

from any claim, suit, action, demand, proceedings or allegations brought against an indemnitee by a third party (each a “**Third Party Claim**”) to the extent arising out of or attributable to (A) any breach of these Terms or the Signature Form by the indemnifying Party or (B) any negligence, fraud or willful misconduct of the indemnifying Party in its performance of these Terms or the Signature Form.

10.2. User Indemnification.

User will, at its expense, indemnify, hold harmless, and, at Science Exchange’s option, defend Science Exchange from and against any and all Third-Party Claims (A) that the User Data, or any use of the User Data in accordance with the Agreement, infringes or misappropriates such third party's Intellectual Property Rights; (B) arising from or attributable to User’s use of any Service in a manner not authorized by the Agreement; (C) arising from or attributable to User’s use of the Platform in combination with data, software, hardware, equipment or technology not provided by Science Exchange or authorized by Science Exchange in writing; or (D) arising from or attributable to any modifications to any Service not made by Science Exchange.

10.3. Indemnification Procedure.

Notice. In the event any Third Party Claim contemplated in [Section 10.1](#) or [Section 10.2](#) is made, or action initiated, the Party seeking indemnification hereunder will promptly notify the other Party in writing of such actual or threatened Third Party Claim to enable the indemnifying Party to arrange for the defense of such Third Party Claim; *provided, however, that* failure to give prompt written notice will not limit the rights to indemnification hereunder except to the extent that the indemnifying Party is materially prejudiced by such failure.

Cooperation. The indemnified Party will cooperate with the indemnifying Party in the investigation, defense and settlement of any Third Party Claims when the indemnifying Party controls the defense of any such Third Party Claims. The indemnifying Party will provide a diligent defense against and/or final settlement of any Third Party Claims brought or actions filed for the loss which is the subject of the foregoing indemnity.

Control of Defense. The indemnifying Party will have sole control over the defense and the right to enter into a full and final monetary settlement of the Third Party Claims, at the indemnifying Party's sole expense and discretion; *provided that* the indemnifying Party will not agree to any settlement which imposes injunctive relief on, requires an admission of fault by, or does not include a complete release of the indemnified Party without the consent of the indemnified Party. In any such proceeding, the indemnified Party will have the right to retain its own counsel and participate in the defense of the Third Party Claims, at the indemnified Party's expense; *provided that* the indemnified Party will not consent to the entry of any judgment or enter into any settlement with respect to the claims without the prior written consent of the indemnifying Party, which consent must not be unreasonably withheld.

Non-exclusivity. The indemnification provided by the Agreement will not be deemed exclusive of any other rights to which the indemnified Party may be entitled to under the Agreement, any other agreement, Applicable Laws or otherwise.

11. Compliance with Laws.

The Parties will comply with all Applicable Laws with respect to use of the Services and all activities performed pursuant to the Agreement, including without

11.3. Export Control.

User will not use the Platform to transmit any materials in violation of any U.S. export control regulations. To comply with U.S. export control regulations, User may be required to obtain an export license prior to releasing certain technologies to non-US citizens depending on the person's home country and resident status. User will not use any person to perform services under an Order who is a citizen of or has permanent residency in any country listed in Country Group E:1 (15 C.F.R. Part 740, Supplement No. 1) (and any amendments thereto or successor lists); and will not use any such person to perform services under an Order without Science Exchange's prior written consent. User will cause its Representatives to comply with the obligations set forth in this section.

11.4. Sanctions.

Neither Party will perform any illegal transaction with any entity included on an official trade and economic sanction list applicable to User or Science Exchange, including without limitation the US International Trade Administration Consolidated Screening List (available at <https://www.trade.gov/consolidated-screening-list>), the

In addition, neither Party will perform any illegal transaction with any entity that is fifty percent (50%) or more owned or controlled, directly or indirectly, by any one or more Blocked Entities.

11.5. Anti-Bribery and Anti-Corruption.

Each Party, on behalf of itself and its Representatives, represents and warrants that it (A) has not and will not offer or give to another User or Science Exchange gifts, entertainment, payments, loans, or other gratuities in order to or that may influence the award of a contract or obtain favorable treatment with Science Exchange or another User and (B) has not and will not authorize, offer, promise, request, receive, or otherwise utilize improper payments or transactions to influence or attempt to influence any Government Official.

In the event that Supplier is a Covered Entity, payments made by or on behalf of Science Exchange to each such Covered Entity or other compensation or consideration received by each such Covered Entity pursuant to the Agreement will (A) represent fair market value, (B) not be determined in a manner that takes into account the volume or value of any future business that might be generated between the Covered Entity Supplier and Science Exchange or any Requester, (C) not be construed to require a Covered Entity Supplier to promote, purchase, prescribe or otherwise recommend any Requester products being marketed or under development and (D) comply with all Applicable Laws. Additionally, Science

Exchange will have the right to inform the Requester of any such payments to a Covered Entity to comply with Applicable Laws including without limitation the United States Physician Payments Sunshine Act (referred to by Centers for Medicare & Medicaid Services as the Physician Open Payments Program) or its foreign equivalent.

12. Warranty Disclaimer.

THE SERVICES ARE PROVIDED BY SCIENCE EXCHANGE ON AN "AS IS," "AS AVAILABLE" BASIS, AND WITHOUT ANY WARRANTIES OR CONDITIONS OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY, ACCURACY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT, WHETHER ARISING OUT OF STATUTE, IN LAW OR FROM A COURSE OF DEALING OR USAGE OR TRADE. SCIENCE EXCHANGE MAKES NO REPRESENTATIONS OR WARRANTIES, OF ANY KIND, EITHER EXPRESS OR IMPLIED, AS TO THE QUALITY OR RELIABILITY OF ANY OTHER USER OR ANY THIRD PARTY, OR AS TO THE ACCURACY OF THE POSTINGS MADE ON THE PLATFORM BY ANY USER OR ANY OUTCOME AS A RESULT OF AN ORDER. SCIENCE EXCHANGE MAKES NO WARRANTY OF ANY KIND THAT THE SERVICE, OR ANY PRODUCTS OR RESULTS OF THE USE THEREOF, WILL MEET USER'S OR ANY OTHER PERSON'S REQUIREMENTS, OPERATE WITHOUT INTERRUPTION, ACHIEVE ANY INTENDED RESULT, BE COMPATIBLE OR WORK WITH ANY SOFTWARE, SYSTEM, OR OTHER SERVICES, OR BE SECURE, ACCURATE, COMPLETE, FREE OF HARMFUL CODE, OR ERROR FREE.

13. Limitation of Liability.

IN NO EVENT WILL EITHER PARTY OR ITS REPRESENTATIVES BE LIABLE TO THE OTHER PARTY OR ITS REPRESENTATIVES, UNDER ANY LEGAL OR EQUITABLE THEORY, INCLUDING BREACH OF CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, AND OTHERWISE, FOR ANY (A) SPECIAL, INDIRECT, CONSEQUENTIAL, INCIDENTAL OR PUNITIVE DAMAGES; (B) INCREASED COSTS, DIMINUTION IN VALUE OR LOST BUSINESS, PRODUCTION, REVENUES OR PROFITS; (C) LOSS OF GOODWILL OR REPUTATION; (D) USE, INABILITY TO USE, LOSS, INTERRUPTION, DELAY, OR RECOVERY OF ANY DATA, OR BREACH OF DATA OR SYSTEM SECURITY; OR (E) COST OF REPLACEMENT GOODS OR SERVICES, IN EACH CASE EVEN IF ADVISED OF THE POSSIBILITY OF SUCH LOSSES OR DAMAGES OR SUCH LOSSES OR DAMAGES WERE OTHERWISE FORESEEABLE; PROVIDED THAT THE FOREGOING LIMITATIONS OF LIABILITY WILL NOT APPLY WITH RESPECT TO SUCH PARTY'S (I) WILLFUL MISCONDUCT, (II) INDEMNIFICATION OBLIGATIONS PURSUANT TO SECTION 10 HEREIN, (III) BREACH OF CONFIDENTIALITY OBLIGATIONS HEREIN or (IV) BREACH OF ARTICLE 11 HEREIN.

Science Exchange provides information to Users via the Platform that allows Requesters to decide to transact with particular Suppliers and vice versa. Requesters and Suppliers may transact with each other via that Platform at their own risk, and Science Exchange does not guarantee the creditworthiness or financial stability of any Requester or Supplier. SCIENCE EXCHANGE IS NOT LIABLE FOR THE PERFORMANCE OF SUPPLIER SERVICES; SUPPLIER SERVICES ARE PERFORMED SOLELY BY SUPPLIER. SCIENCE EXCHANGE PROVIDES THE PLATFORM TO FACILITATE TRANSACTIONS BETWEEN REQUESTERS AND SUPPLIERS, BUT SCIENCE EXCHANGE IS NOT LIABLE FOR PERFORMANCE OF TRANSACTIONS BETWEEN

REQUESTERS AND SUPPLIERS. SCIENCE EXCHANGE IS NOT LIABLE FOR FINANCIAL LOSS INCURRED BY USER IN THE EVENT OF INSOLVENCY OR BANKRUPTCY OF A PARTICULAR REQUESTER OR SUPPLIER.

NOTWITHSTANDING ANYTHING TO THE CONTRARY STATED IN THE AGREEMENT OR OTHERWISE, IN NO EVENT WILL SCIENCE EXCHANGE'S AGGREGATE LIABILITY TO USER ARISING OUT OF OR RELATED TO THE AGREEMENT OR THE SERVICE, WHETHER BASED ON CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, OR ANY OTHER THEORY OF LIABILITY, EXCEED THE LESSER OF (A) \$1,000,000 OR (B) THE AGGREGATE AMOUNT OF FEES ACTUALLY COLLECTED BY SCIENCE EXCHANGE FROM USER FOR THE SERVICES TO WHICH THE LIABILITY RELATES DURING THE SIX (6) MONTH PERIOD IMMEDIATELY PRECEDING THE DETERMINATION OF SUCH LIABILITY.

The Services are controlled and operated from facilities in the United States. Science Exchange makes no representations that the Services are appropriate or available for use in other locations. Those who access or use the Services from other jurisdictions do so at their own risk. User may not use the Services if User is a resident of a country embargoed by the United States, or is a foreign person or entity blocked or denied by the United States government.

14. Independent Contractors.

User is an independent contractor of Science Exchange, and nothing in the Agreement will be construed as creating an employer-employee relationship, a partnership or a joint venture between the Parties. Nothing in the Agreement will be construed or interpreted so as to prohibit a Party from entering into similar agreements with any third parties concerning similar deliverables or services so long

as such Party complies with its obligations hereunder, including without limitation with respect to confidentiality and ownership of intellectual property. Neither Party will have, nor represent to any third party that it does have, any power or authority to bind the other Party or incur any obligations on the other Party's behalf. A Party's employees will not be entitled to any of the benefits that the other Party may make available to such other Party's employees, including without limitation, group insurance, profit-sharing or retirement benefits.

15. Miscellaneous.

15.1. Notification Procedures.

Notices by Science Exchange. Unless otherwise expressly stated in the Agreement, Science Exchange may provide notifications to User via the Platform, via written or hard copy notice to the notice address or email listed on the Signature Form, or through posting of such notice on <https://www.scienceexchange.com> whether such notifications are required by law or are for marketing or other business related purposes, as determined by Science Exchange in its sole discretion. Science Exchange reserves the right to determine the form and means of providing notifications to User; *provided that* User may opt out of certain means of notification by contacting Science Exchange via the notification User received. Science Exchange is not responsible for any automatic filtering User or User network provider may apply to email notifications sent to the email address User provides Science Exchange.

Notices by User. Unless otherwise expressly stated in the Agreement, all notices by User to Science Exchange under the Agreement will be written in English, will reference the Signature Form and will be sent to:

Science Exchange, Inc.

Attn: Legal Department

2261 Market Street #4759

San Francisco, CA 94114

With an email copy to: legal@scienceexchange.com

15.2. Authority.

Each Party represents that (A) the person signing the Signature Form has all right, power and authority to sign the Agreement on behalf of such Party; and (B) it has full power and authority and all necessary authorizations to comply with the terms of the Agreement and to perform its obligations hereunder.

15.3. Execution of Agreement.

The Signature Form may be executed in counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument. The Parties agree that electronic signatures and facsimiles of original signatures on documents executed, scanned and transmitted electronically in portable document format (.pdf) will be deemed original signatures for purposes of the Agreement and will have the same legal force and effect as any copy bearing original signatures of the Parties.

15.4. Force Majeure.

Neither Party will be liable for any delay or failure of its performance in connection with the Agreement due to events beyond its reasonable control, including acts of God, acts of government, flood, fire, earthquakes, Internet supplier failure or delay, pandemic, epidemic, non-Science Exchange software application, or

denial-of-service attack, civil unrest, and acts of terror; *provided that* such Party provides prompt written notice of the event and uses its diligent efforts to resume performance.

15.5. No Assignment.

Neither Party may assign or delegate the Agreement without the other Party's prior written consent, and any such purported assignment or delegation will be void, except that Science Exchange may assign the Agreement, without the User's consent, to a successor or acquirer, as the case may be, in connection with a merger or acquisition, or the sale of all or substantially all of Science Exchange's assets to which the Agreement relates. No assignment will relieve the assigning Party of any of its obligations hereunder. Subject to the foregoing, the Agreement will bind and inure to the benefit of the Parties' permitted successors and assigns.

15.6. Waiver, Amendments and Modifications.

Failure by either Party to enforce any provision of the Agreement will not be deemed a waiver of future enforcement of that or any other provision. Any waiver, amendment or other modification of any provision of the Agreement will be effective only if in writing and signed by duly authorized representatives of the Parties.

15.7. Entire Agreement; Severability.

The Agreement constitutes the sole and entire agreement of the Parties with respect to the subject matter contained herein, and supersedes all prior and contemporaneous understandings and agreements, both written and oral, with respect to such subject matter. Notwithstanding the foregoing, the Supplier Services are governed by either the Supplier T&Cs or a Direct Agreement. If for any reason a court of competent jurisdiction finds any provision of the Agreement invalid or unenforceable, the remaining provisions of the Agreement will remain in full force

and effect, and the invalid or unenforceable provision will be enforced as nearly as possible in accordance with the stated intention of the Parties. To the extent that any provision cannot be enforced in accordance with the stated intentions of the Parties, such provision will be deemed not to be a part of the Agreement, but otherwise the Agreement will continue in full force and effect.

15.8. Governing Law and Jurisdiction.

The Agreement will be governed by and construed in accordance with the laws of the State of Delaware, excluding any conflicts of law principles that would otherwise apply the law of any other jurisdiction. Any legal suit, action or proceeding arising out of or related to the Agreement will be brought exclusively in the Delaware Court of Chancery (and the appropriate appellate courts therefrom), and each Party irrevocably submits to the exclusive jurisdiction of such courts in any such suit, action or proceeding, and irrevocably waives any objection based on inconvenient forum or lack of personal jurisdiction. For clarity, if the Supplier Services are governed by a Direct Agreement, the Supplier Services, including all Orders, will be subject to the governing law and jurisdiction set forth in the applicable Direct Agreement.

15.9. Survival.

Any terms of the Agreement, which by their nature extend beyond the termination of the Agreement, will survive the termination to the extent necessary to effectuate the intent of the Parties. This includes, without limitation, the confidentiality, personal data, intellectual property, indemnification, limitation of liability, records, audit, governing law, submission to jurisdiction, notice provisions, and this survival provision.
